Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Shane Scott

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and

filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Danny Nutley

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Abigail Farrow

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and

filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Nigel Beckman

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Re: Support of MP 10_0229 - Concept Plan - Mixed Use Development, Cronulla Sharks.

Dear Michael,

Please accept this letter as my formal SUPPORT of the proposed development for the following reason(s):

Housing: The residential component will provide 700 new dwellings in a range of size and affordability, which I believe is badly needed in the Shire, and will assist in reducing further urban sprawl.

Retail: The retail precinct will provide much needed conveniences to local residents including supermarkets, medical facilities, child care, entertainment and dining.

Jobs: 1500+ new jobs will be created. Local jobs in the Shire allows for a reduced need to commute and greater quality of life for people of varying age.

Park: The open space and playground facilities which allow disabled kids and able-bodied kids to play together will benefit the Shire greatly and be one of a kind.

Playing Fields: The existing playing fields will be relocated and significantly upgraded with brand new state of the art facilities, which is badly needed.

Club: The renovated club will provide a place for Shire residents to enjoy family entertainment and outdoor eating with views to the city in an area devoid of similar opportunities.

Mangroves: The mangroves will benefit from world-leading environmental practices which will protect and improve their health and open them to protected public access via boardwalks and educational facilities.

Traffic: The traffic impact from the redevelopment has been assessed independently as minimal and Transport NSW has given in-principle commitment to a new dedicated public bus service to the area with the new population from the redevelopment.

Park and Ride: Game day patrons will enjoy efficient and safe Park and Ride arrangements that are similar to those in place in most stadiums for big events around Australia.

Community: The Sharks community support will increase, with a commitment to sharing the success of the club and the team with a wide range of local sporting and community groups.

Family: A new family entertainment precinct providing a safe, fun and educational centre for the children and youth of the Sutherland Shire.

Medical: First class medical facilities including day surgery, general practitioners and specialist medical practices for all the community including the sporting elite.

Public Transport: The plan will bring additional buses to the northern beaches of Cronulla which are harder to get to by public transport and reduce reliance on personal vehicle use both on game days and throughout the year.

Environmental Care: The current environmental problem of fertilizer-rich stormwater from the golf course flooding the playing fields and discharging into the Bay will be resolved. The mitigation and filtration systems included will see clean water directed into the bay.

Please include these advantages when making your decision about the approval of the mixed-use development proposal for the Cronulla Sharks land.

Sincerely,

Kelly Renford

Dear Michael

Re: **Objection** of concept plan for the Cronulla Sharks Development, Woollooware, (MP 10_0229).

Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

Reason for Objection - Game Day Parking - Loss of 540 Car Spots

The Sharks football games have long been a favourite outing for Sutherland Shire residents. Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach and buses used to transport you to and from your car. The extended travel times with buses, the hassle, and no doubt extra cost for families will turn the average sharks supporter away. This would be almost impossible for families with young children.

If buses are not used, the impact on local residents of North Caringbah, Woollooware, and North Cronulla would be unacceptable. Cars would be forced to park in residential streets, on peoples front lawns etc, creating added impact to the already congested situation caused by the units.

I also object to local schools playing fields being used for the purposes of private business advancing development plans. This is a dangerous precedent. We rely on our school sporting facilities to be kept in good condition for sport, not parking!

I strongly believe that proceeding with this development would be at the detriment of our local environment and community, and I ask that the objections expressed in this letter be noted during the planning process.

Yours sincerely,

Ron Hammond

Dear Michael

Re: **OBJECTION OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE,**
(MP 10_0229).

Please accept this letter as my formal OBJECTION to the proposed development stated above.

Reason for Objection – Size and Density, Visual Impact

The proposed development is significantly larger than any other existing development in the Sutherland Shire. The surrounding roads could not cope with the additional traffic generated by 700 units, and a Shopping Centre, and an expanded club. Gannons Road and Captain Cook Drive are already severely congested at peak times, resulting in lengthy delays on both roads.

This increased traffic will stop children being able to walk and ride bikes to Woollooware Public School, Woollooware High School and Cronulla High, as roads will be too dangerous for pedestrians. Surely our children deserve the opportunity to be able to walk to school?

This high-density development will completely change the look, feel and landscape of the area. There is nothing of this size located this far from public transport and this monstrous development will be not only stand out as eyesore from the homes in the area, it will destroy the open suburban feel we have all strived to maintain, and pay a premium for, in the Sutherland Shire.

I strongly believe that proceeding with this development would be at the detriment of our local environment and community, and I ask that the objections expressed in this letter be noted during the planning process.

Yours sincerely
