

There is a **real threat of irreparable damage being caused to this sensitive bay environment** as the Junior Ovals are on an uncontrolled tip site from the 1950s and 1960s. When the land is excavated who knows what dangerous toxins and poisonous debris may find its way into the mangroves and bay area through direct run-off or leaching.

Pollution such as papers, plastic containers, cans, bottles, plastic bags, petrols and oils from parked cars and also the occasional shopping trolley will no doubt find its way into the mangroves and bay due to rain run-off, wind or deliberate dumping. Imagine how much rubbish will be produced by 700 units and a large shopping centre?

**I strongly believe that proceeding with this development would be at the detriment of our local environment and community, and I ask that the objections expressed in this letter be noted during the planning process.**

Yours sincerely,

**Note I do not want my name or any personal information published on the Department's website.**

Dear Michael

Re: **OBJECTION OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).**

**Please accept this letter as my formal OBJECTION to the proposed development stated above. ( 3 pages in total )**

**Reason for Objection – Size and Density, Visual Impact**

The proposed development is significantly larger than any other existing development in the Sutherland Shire. The surrounding roads could not cope with the additional traffic generated by 700 units, and a Shopping Centre, and an expanded club. Gannons Road and Captain Cook Drive are already severely congested at peak times, resulting in lengthy delays on both roads.

This increased traffic will stop children being able to walk and ride bikes to Woollooware Public School, Woollooware High School and Cronulla High, as roads will be too dangerous for pedestrians. Surely our children deserve the opportunity to be able to walk to school?

This high-density development will completely change the look, feel and landscape of the area. There is nothing of this size located this far from public transport and this monstrous development will be not only stand out as eyesore from the homes in the area, it will destroy the open suburban feel we have all strived to maintain, and pay a premium for, in the Sutherland Shire.

**Reason for Objection – Traffic Congestion**

The proposed development is significantly larger than any other existing development in the Sutherland Shire. The surrounding roads could not cope with the additional traffic generated by 700 units, and a Shopping Centre, and an expanded club. Gannons Road and Captain Cook Drive are already severely congested at peak times, resulting in lengthy delays on both roads.

A traffic study included in the EA submitted by the developers, found the project would generate 1249 two-way vehicle movements an hour during the Friday afternoon peak period and 1060 vehicle movements during the Saturday afternoon peak period.

There is no room for the expansion of these roads, and the removal of the roundabout would worsen the traffic flow for this amount of cars. Imagine the impact when crowds arrive for both Saturday sport and Rugby League Games.

This increased traffic will stop children being able to walk and ride bikes to Woollooware Public School, Woollooware High School and Cronulla High, as roads will be too dangerous for pedestrians. Surely our children deserve the opportunity to be able to walk to school?

#### **Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit, however as this complex is not in walking distance of a train station the average car ownership will be one car per person, per dwelling. This would be result in **2 - 4 cars per unit**.

There is no parking on Captain Cook Drive or Gannons Rd and this would force cars to park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook, impacting on local parents & sporting teams taking their kids to both weeknight training as well as weekend games.

We are a community passionate about sport. The Sutherland Shire has a very high participation in of Junior Soccer, Rugby League, Softball and Oztag. All these codes use these fields.

The impact of the enormous amount of cars from this development would impact significantly on the access and enjoyment of these community games.

#### **Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

The Sharks football games have long been a favourite outing for Sutherland Shire residents. Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach and buses used to transport you to and from your car. The extended travel times with buses, the hassle, and no doubt extra cost for families will turn the average sharks supporter away. This would be almost impossible for families with young children.

If buses are not used, the impact on local residents of North Caringbah, Woollooware, and North Cronulla would be unacceptable. Cars would be forced to park in residential streets, on peoples' front lawns etc. creating added impact to the already congested situation caused by the units.

I also object to local schools playing fields being used for the purposes of private business advancing development plans. This is a dangerous precedent. We rely on our school sporting facilities to be kept in good condition for sport, not parking!

#### **Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point. Even though Towra Point is only 300 hectares or so, it has half of Sydney's remaining mangroves - **the city's most significant wetland. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here.**

There is a **real threat of irreparable damage being caused to this sensitive bay environment** as the Junior Ovals are on an uncontrolled tip site from the 1950s and 1960s. When the land is excavated who knows what dangerous toxins and poisonous debris may find its way into the mangroves and bay area through direct run-off or leaching.

Dear Michael

Re: **OBJECTION** OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).  
Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

**Reason for Objection – Size and Density, Visual Impact**

The proposed development of 700 home units is significantly larger than any other existing development in the Sutherland Shire. There is nothing of this size located this far from public transport and this high-density development will completely change the look, feel and landscape of the area.

**Reason for Objection – Traffic Congestion**

The surrounding roads could not cope with the additional traffic generated by 700 units, a Shopping Centre, & an expanded club. Gannons Rd & Captain Cook Drive, key access roads to Cronulla & Kurnell, are already severely congested at peak times, resulting in lengthy delays. There is no room for the expansion of these roads.

**Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit. The high rise complex is not in walking distance of a train station, therefore the average car ownership will be one car per person, per dwelling resulting in 2 to 4 cars per unit. Excess cars will park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook.

**Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach with buses to transport fans to the game. The extended travel times with buses, and the hassle, will turn supporters away and make it almost impossible for families with young children. I object to local schools playing fields being used to support private business advancing development plans. The loss of 540 spots impacts on local residents of North Caringbah, Woollooware, and North Cronulla with game day cars in residential streets, on peoples' front lawns etc, adding to the already congested parking situation caused by the additional 700 units.

**Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours sincerely,

Dear Michael

Re: **OBJECTION OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).**  
Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

**Reason for Objection – Size and Density, Visual Impact**

The proposed development of 700 home units is significantly larger than any other existing development in the Sutherland Shire. There is nothing of this size located this far from public transport and this high-density development will completely change the look, feel and landscape of the area.

**Reason for Objection – Traffic Congestion**

The surrounding roads could not cope with the additional traffic generated by 700 units, a Shopping Centre, & an expanded club. Gannons Rd & Captain Cook Drive, key access roads to Cronulla & Kurnell, are already severely congested at peak times, resulting in lengthy delays. There is no room for the expansion of these roads.

**Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit. The high rise complex is not in walking distance of a train station, therefore the average car ownership will be one car per person, per dwelling resulting in 2 to 4 cars per unit. Excess cars will park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook.

**Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach with buses to transport fans to the game. The extended travel times with buses, and the hassle, will turn supporters away and make it almost impossible for families with young children. I object to local schools playing fields being used to support private business advancing development plans. The loss of 540 spots impacts on local residents of North Caringbah, Woollooware, and North Cronulla with game day cars in residential streets, on peoples' front lawns etc, adding to the already congested parking situation caused by the additional 700 units.

**Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours sincerely

Dear Michael

Re: **OBJECTION** OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).

Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

**Reason for Objection – Size and Density, Visual Impact**

The proposed development of 700 home units is significantly larger than any other existing development in the Sutherland Shire. There is nothing of this size located this far from public transport and this high-density development will completely change the look, feel and landscape of the area.

**Reason for Objection – Traffic Congestion**

The surrounding roads could not cope with the additional traffic generated by 700 units, a Shopping Centre, & an expanded club. Gannons Rd & Captain Cook Drive, key access roads to Cronulla & Kurnell, are already severely congested at peak times, resulting in lengthy delays. There is no room for the expansion of these roads.

**Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit. The high rise complex is not in walking distance of a train station, therefore the average car ownership will be one car per person, per dwelling resulting in 2 to 4 cars per unit. Excess cars will park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook.

**Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach with buses to transport fans to the game. The extended travel times with buses, and the hassle, will turn supporters away and make it almost impossible for families with young children. I object to local schools playing fields being used to support private business advancing development plans. The loss of 540 spots impacts on local residents of North Caringbah, Woollooware, and North Cronulla with game day cars in residential streets, on peoples' front lawns etc, adding to the already congested parking situation caused by the additional 700 units.

**Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours sincerely,

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours sincerely,

Dear Michael

Re: **OBJECTION** OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).  
Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

**Reason for Objection – Size and Density, Visual Impact**

The proposed development of 700 home units is significantly larger than any other existing development in the Sutherland Shire. There is nothing of this size located this far from public transport and this high-density development will completely change the look, feel and landscape of the area.

**Reason for Objection – Traffic Congestion**

The surrounding roads could not cope with the additional traffic generated by 700 units, a Shopping Centre, & an expanded club. Gannons Rd & Captain Cook Drive, key access roads to Cronulla & Kurnell, are already severely congested at peak times, resulting in lengthy delays. There is no room for the expansion of these roads.

**Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit. The high rise complex is not in walking distance of a train station, therefore the average car ownership will be one car per person, per dwelling resulting in 2 to 4 cars per unit. Excess cars will park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook.

**Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach with buses to transport fans to the game. The extended travel times with buses, and the hassle, will turn supporters away and make it almost impossible for families with young children. I object to local schools playing fields being used to support private business advancing development plans. The loss of 540 spots impacts on local residents of North Caringbah, Woollooware, and North Cronulla with game day cars in residential streets, on peoples' front lawns etc, adding to the already congested parking situation caused by the additional 700 units.

**Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours sincerely,

Dear Michael

Re: **OBJECTION** OF CONCEPT PLAN FOR THE CRONULLA SHARKS DEVELOPMENT, WOOLLOOWARE, (MP 10\_0229).  
Please accept this letter as my formal **OBJECTION** to the proposed development stated above.

**Reason for Objection – Size and Density, Visual Impact**

The proposed development of 700 home units is significantly larger than any other existing development in the Sutherland Shire. There is nothing of this size located this far from public transport and this high-density development will completely change the look, feel and landscape of the area.

**Reason for Objection – Traffic Congestion**

The surrounding roads could not cope with the additional traffic generated by 700 units, a Shopping Centre, & an expanded club. Gannons Rd & Captain Cook Drive, key access roads to Cronulla & Kurnell, are already severely congested at peak times, resulting in lengthy delays. There is no room for the expansion of these roads.

**Reason for Objection – Insufficient Parking**

Where will the residents of these 700 units park? The proposition includes just over 1.2 parking spots per unit. The high rise complex is not in walking distance of a train station, therefore the average car ownership will be one car per person, per dwelling resulting in 2 to 4 cars per unit. Excess cars will park not only in surrounding residential streets, but the public car parks for the surrounding soccer and rugby league fields, Solander and Captain Cook.

**Reason for Objection - Game Day Parking - Loss of 540 Car Spots**

Families and Fans enjoy the local atmosphere of parking close to the stadium and walking to the field. I object to the proposition of offsite parking, and the proposal of mass parking at Wanda beach with buses to transport fans to the game. The extended travel times with buses, and the hassle, will turn supporters away and make it almost impossible for families with young children. I object to local schools playing fields being used to support private business advancing development plans. The loss of 540 spots impacts on local residents of North Caringbah, Woollooware, and North Cronulla with game day cars in residential streets, on peoples' front lawns etc, adding to the already congested parking situation caused by the additional 700 units.

**Reason for Objection – Environmental**

This development is next to sensitive mangroves on the foreshore of Botany Bay not far from Towra Nature Reserve at Towra Point which has half of Sydney's remaining mangroves - **the city's most significant wetland**. This habitat is a staging post for 30 migratory bird species and there are many Aboriginal sites here. There is a real threat of irreparable damage being caused to this sensitive bay environment.

I ask that the objections expressed in this letter be noted during the planning process. I request that the voices of local people be considered before submissions from those not living in the Sutherland Shire.

Yours
