**Subject:** FW: Rehabilitation Plan for Remediation Works at Edmondson Park

---

Hi Richard,

LANDCOM have approached me seeking endorsement of the Remediation Action Plan for the Edmondson Regional Park. I have provided in-principal support for the plan, however in reviewing the document I identified that the Part 3a condition requires the preparation and approval of the Rehabilitation Plan by OEH prior to the commencement of the Remediation Action Plan. LANDCOM have expressed a concern with this, as it impacts on their ability to complete the remediation works and transfer the Regional Park to OEH by August 2012 in accordance with the Conservation Agreement.

Donna Savage has indicated below that LANDCOM should be able to deliver the Rehabilitation Plan by the end of January, however is seeking an amendment to the Part 3a condition. Can you please advise if EPRG are supportive of the proposed amendment to the Part 3a condition as per below.

I will continue to work closely with Landcom to expedite rehabilitation plan, and have no objection to the amendment to the Part 3a condition.

A tight turnaround on this matter is requested by Landcom.

If you have any questions, please don't hesitate to contact me.

Regards  
 Travis

**Subject:** Rehabilitation Plan for Remediation Works at Edmondson Park

Travis,

The earliest I can have a draft Rehabilitation Plan to NPWS will be late January, I do not want delay the remediation works given that handover of the site to NPWS is required on 31 August 2012 and the remediation programme is already tight. However our current Part 3a Project Approval condition 1.2 states,

A rehabilitation plan is required to be prepared, and approved by Office of Environment and Heritage, **prior to commencement of works** under the remediation action plan, and is to demonstrate how areas to be cleared for remediation purposes can be revegetated and rehabilitated to an appropriate standard.

I have discussed the need to start the works asap with Anna Johnson of DoP and she advises DoP is happy to amend the above condition to allow us to start the remediation works as long as we obtain OEH agreement to the proposed amended condition.

The proposed revised condition is:

**Vegetation management and rehabilitation**

1.1 ~~A rehabilitation plan is required to be prepared, and approved by Office of Environment and Heritage, prior to commencement of works under the remediation action plan, and is to demonstrate how areas to be cleared for remediation purposes can be revegetated and rehabilitated to an appropriate standard. The rehabilitation plan is to be approved by Office of Environment and Heritage prior to the issue of a site audit statement for the remediation works and commencement of any rehabilitation works.~~

DoP will be able to amend this condition very quickly and DoP has asked for email confirmation from OEH that it has no objection to the amended condition. As DoP's consultation with OEH was originally with Giselle Howard/Richard Bonner's section, DoP has asked that someone in this section endorse your response.

I have provided Des' draft comments for the revegetation requirements to our Ecological Consultant (the consultant is *Ecological*) . Do you wish to provide any additional information re revegetation? If not Ecological will use the comments provided by Des on 5th Jan 2012 to prepare a first draft of the Rehabilitation Plan. We will organise a site meeting with you once we have the first draft. So there is no need to meet next week on site.

Your agreement to the proposed amended condition is very urgently sought.

Regards

Donna Savage
