Peter,

All the information we have received from you to date has been very helpful and following your letter of invitation we will be visiting RailCorps Plan room this Friday at 10.00am to see if there is any think else that might be of use to us.

As previously discussed the main outstanding issue for us is now is the Detailed Site Survey of the subject and from your previous correspondence is not covered in recent surveys..

So with this in mind it would be greatly appreciated if you could provide the procedures that I need to follow to have this Survey completed. Please find attached a marked up diagram of the position of our proposed concrete column in relation to the survey required. As you are aware time is of the essence for us as we are not far away from submitting our DA to the Department of planning.

Thanks

Regards,
DeiCorp Constructions P/L
