For the attention of: John Riordan

Dear John,

**Port Macquarie Base Hospital Expansion – Main Works
Approximate Earthworks Volumes for Main Works**

We advise that the approximate earthworks volumes for the civil works associated with the main works at the western end of the site for the Port Macquarie Base Hospital Expansion are as follows:

- Topsoil Removal – 1200m³ approx.
- Cut to Fill – 3750m³ approx.
- Cut to Spoil – 1750m³ approx.

These values will need to be confirmed by detailed calculation once design has been developed.

If there is anything further required please advise.

Yours Sincerely,

for
enstruct group pty ltd

Timothy Boulton
Senior Associate
