Hi Camille,

Yes, Figure 12-4 (2030 Draft ANEF) is the correct version to use - it is only draft as it is awaiting formal endorsement from Airservices Australia but we don't envisage any changes... certainly none that would impact on the Base Hospital.

Ashley

Just confirming they are using the correct ANEF.

Subject Port Macquarie Airport ANEF contours

2/11/2011

Hi Doug,

I have spoken to you before regarding OSL levels for Port Macquarie Airport with respect to the Port Macquarie Base Hospital.

Under the Port Macquarie-Hastings LEP (Clause 7.8), aircraft noise also needs to be considered for hospital development if the site is within an ANEF contour of 20 or more.

There is a Draft ANEF Map in the Port Macquarie Airport Master Plan 2010 (http://www.hastings.nsw.gov.au/resources/documents/Figure_12-4.pdf) which shows the hospital to be outside any ANEF contour areas, and accordingly, not affected by this LEP control. Could you please confirm that this is the map we should be using to determine the ANEF contour areas or whether there is a Final map available?

Regards,

Camille Lattouf
