Subject: Possible withdrawal of Summer Hills Flour Mill referral (our ref: 2011/5859) [SEC=UNCLASSIFIED]

Deat Scott,

I refer to our conversation on Tuesday 1st March 2011 regarding the above referral. I note your ecologist's advice that no matters of national environmental significance are affected by the proposal. I have read the referral and the attached flora and fauna assessment and I concur with this advice. However, I understand you received additional advice to refer this proposal to the Commonwealth Department of Sustainability Environment Populations & Community as a means to reassure yourselves that the Department need not be involved in the detailed development and implementation of the proposal.

I am of the view that the chance of any matters of national environmental significance being affected by the development is very low and I would be happy to facilitate the withdraw your referal as you have requested. Please write to me at the address below advising me of your request. If you email me a PDF copy of your letter I can get your request started immediately.

Thank you for consulting with me on this matter.

Kind regards

Wil
