**EXHIBITION OF ENVIRONMENTAL ASSESSMENT FOR CONCEPT PLAN AT THE
AUSTRALIAN CATHOLIC UNIVERSITY, STRATHFIELD CAMPUS, STRATHFIELD**

Dear Alan Bright,

I refer to your letter dated 16 January 2012 (Department's Ref: MP10_0231) with regard to the abovementioned development proposal, which was referred to the Roads and Maritime Services (RMS) for comment. RMS appreciates the opportunity to review the proposal and provide comment. I apologise for the delay in providing our response.

It is noted that Transport for NSW (TfNSW) provided comment in a letter dated 15 March 2012 requesting that a number of public transport and parking matters be addressed. RMS supports the concerns raised in the submission from TfNSW. In addition, RMS provides the following comments to the Department for its consideration in the determination of the development application:

1. The proposed traffic signals on Barker Street at eastern boundary of the site, aligned opposite South Street require the approval of RMS under Section 87 of the Roads Act, 1993. In this regard, the applicant is required to demonstrate to RMS satisfaction that the warrants for the proposed traffic signals are met. In this regard, the applicant should refer to RMS's Traffic Signal Design, Section 2-Warrants.
2. The provision of the proposed traffic signals on Barker Street will require the removal of a number of existing on-street parking spaces and the impact of the removal of this parking shall be assessed.

The Department should request the proponent to revise the submitted Transport & Accessibility Study (TAS) to take into account the concerns raised by RMS and the comments provided by TfNSW in its letter dated 15 March 2012 and refer the revised TAS to RMS and TfNSW for review and comment.
